

HOPE FOR GHANAIAN CHILDREN AND YOUTH

a non-governmental organization

DUKEDOM
FOUNDATION INC

a non-governmental organization

In this brochure, Dukedom Foundation Inc. explains the rationale behind what we do and some works we've done so far. There is the need to support our foundation to reach out to many children and youths in Ghana

...building Ghana together

Background

Across the world, millions of families have been torn apart by the death of loved ones. All too often, orphans and widows are left to fend for them, grieving, struggling and in desperate need of support.

Women, many newly married or elderly lose their husbands to crime, disease and extreme poverty. They are left with the duty of providing for their family. Many widows live in cultures where women are not educated and men are the sole breadwinners of the family, so when a woman becomes a widow, she has no skills to make a living from. To make matters worse, in many cultures widows are denied their rights. They lose their home and property due to a lack of inheritance entitlements. They are exposed to sexual violence, isolated from the community and labelled as an 'untouchable'. Children of widows are mistreated by association.

As a result, many children and youths fall deeper into poverty with no prospects of having a better life. Some live in houses made of scrap material, like mud and sheets of steel. Families of 8 or 9 are crammed into one small room which serves as their home, their kitchen and bathroom with makeshift beds all in one area, increasing the risk of disease and ultimately, death. It is for reasons such as these that Dukedom Foundation Inc. has decided to help alleviate some of these situations.

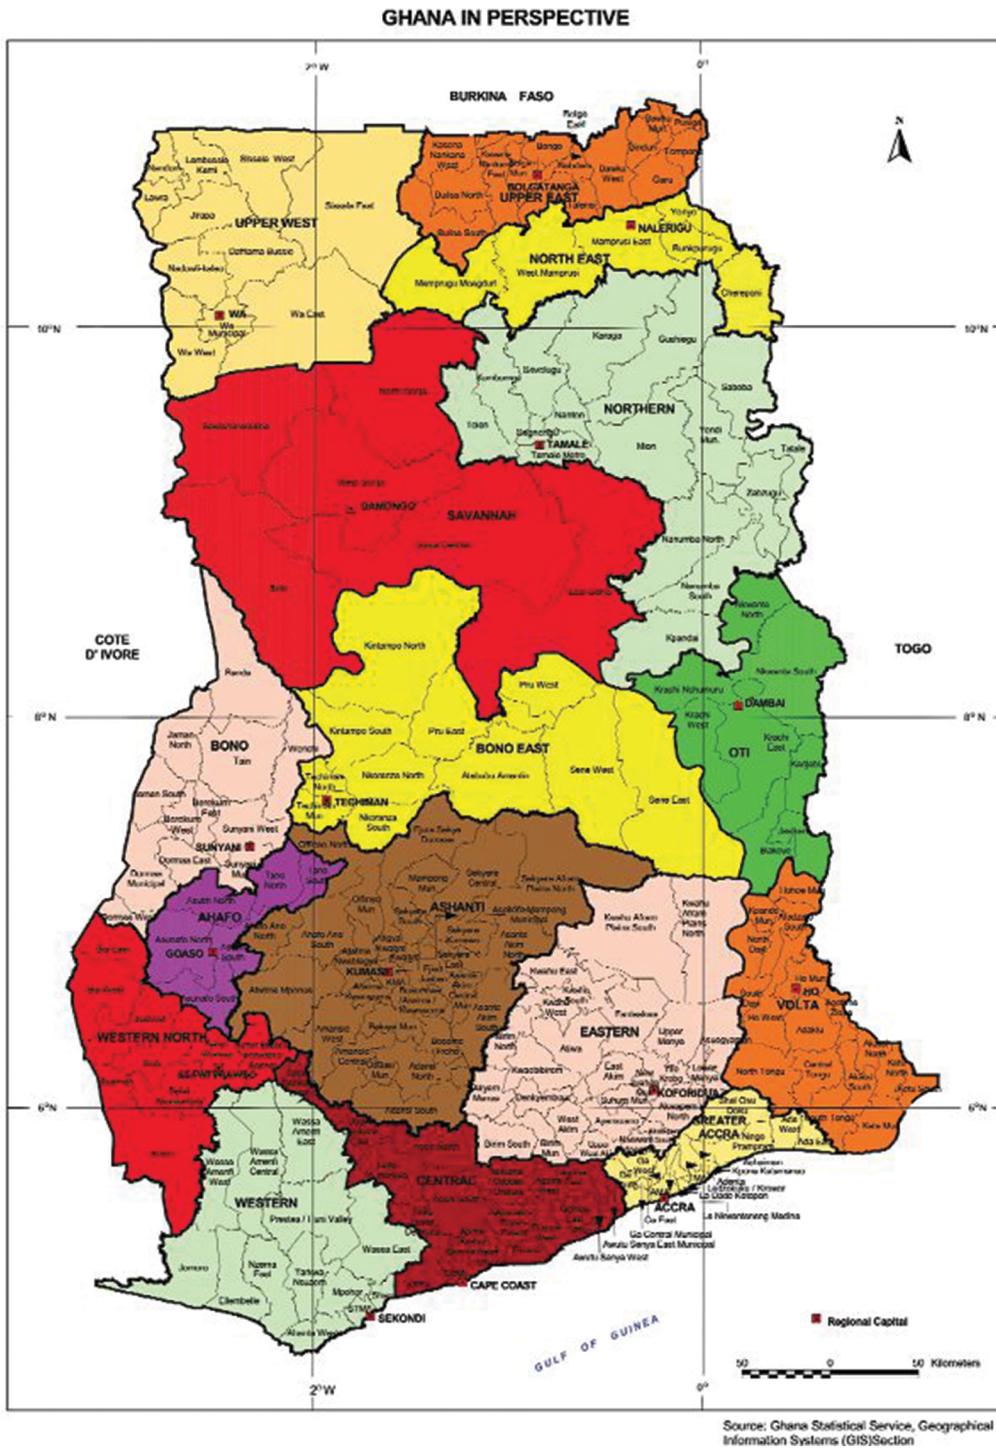

We support orphanages and underserved children

We put smiles in the
mouth of the aged

We Operate in Ghana

Dukedom Foundation Inc. is a Ghana based organization supporting and caring for many families in various parts of Ghana. Since our establishment in 2020, we have supported those who struggle to survive and make a living for themselves. Your donations ensure we can provide long-term sustainable solutions to the most vulnerable of our society. Our teams are working around the clock to give children and youths the best care and livelihood they deserve.

Giving hope to talented youth is our priority

Main Goals

- Draw the public's attention to the Human Rights violation against vulnerable children, youth and adults (maltreatment and harassment) in this part of the country and to bring possible solutions
- Raise the dignity and image of children, youth and adults who are stigmatized in the society
- Promote the economic, social, educational and domestic interest of underserved persons, focusing on the rural areas.
- Create a focal point for common discussion to establish awareness concerning problems faced by children and the youth, felt needs, and availability of local and external resources, which could be tapped to address those problems
- Assist in schooling of needy orphan children in the first and second cycle institutions in particular and where necessary, in tertiary institutions
- Provide job opportunities, vocational training and medical support to the youth as a way to improve their economic conditions.

Our Vision

Contributing to Ghana's development agenda by supporting persons of all ages, improving their livelihood and making them self-sufficient to promote their socio-economic lives.

Our Mission

We seek to reach children and youth in all parts of Ghana, using available resources (locally and externally) as much as possible to develop their lives, through programs and income-generating initiatives, thus facilitating economic independence.

To work towards a world where everyone gets the help and respect they deserve; from the orphaned children who are neglected, to the widowed women who have lost their rights and to the underserved youth who have lost hope.

One of the schools in Kwahu Mpraeso, we've termed as one of our projects

We donate to support the School at Kwahu Mpraeso

During our visit to Kwahu Mpraeso school

The School at Kwahu Mpraeso where our future leaders are trained

We registered many orphans, children and adults on our National Health Insurance Scheme this year 2022

We support many organizations and persons

We support many organizations and persons

We support many organizations and persons

We have great talents, giving them a bigger picture to envisage
